

Co-working offices –Leopalace21’s Proposal of New Office Style

Leopalace21 began offering “co-working office plans” at our serviced offices in the Philippines and Myanmar. Desks, chairs, and Internet access are available in the lounge and café on the serviced office floor to provide “short-term” and “easy” access to our office plans. It can be used as a temporary space during short business trips for on-site surveys and marketing research to prepare for entry to the market.

Makati, Philippines

Yangon, Myanmar
