Notice Concerning Formulation of a
New Medium-Term Management Plan "Creative Evolution 2020"

Leopalace21 Corporation ("the Group") has created a new three-year Medium-Term Management Plan "Creative Evolution 2020", launching April 2017.

In the new Medium-Term Management Plan "Creative Evolution 2020", the Group will determine its ideal state in the present business environment, and aim to create corporate and social value. The group will achieve this goal by continuing to grow in its core businesses, as well as building a strong growth business structure for future growth.

1. Review of the previous Medium-Term Management Plan

The Group's mission is "Creating New Value", and the Group implements business with aim of creating an affluent society with a pleasant lifestyle.

Under the previous medium-term management plan "Expanding Value" announced in May 2014, the Group had been aiming to build a solid management structure by focusing on the leasing and construction businesses while expanding our business territory, based on its fundamental policy of "*focusing on core businesses and challenging itself with new business fields*".

The group has accelerated growth in the core businesses, especially in the stock-based Leasing Business, and achieved a three-year-total operating and recurring profit of 56 billion yen and 52 billion yen, respectively, which surpassed our initial plan. Also, non-consolidated retained earnings had been negative at the start of the previous plan, but have turned positive and the Group has returned profit to shareholders through dividend payments.
