

Leopalace21 announced the following progress for November 2022.

### Progress of repair works for the buildings constructed by Leopalace21

Apartment Series	N° of buildings	N° of buildings containing obvious defects	N° of all rooms which corresponds to N° of buildings containing obvious defects	(unit: room)	
				N° of rooms requiring repairs	N° of rooms with repairs completed
Nail Series / Six Series * <sup>1</sup> Total	15,283	7,741	121,665	85,841	46,699
The Other Series * <sup>2</sup> Total	23,802	4,564	70,996	49,415	7,577
Grand Total	39,085	12,305	192,661	135,256	54,276

- The number of rooms requiring repairs is calculated by reducing the number of rooms with no obvious defects from the number of all rooms which corresponds to the number of buildings containing obvious defects.
- The number of rooms requiring repairs includes the rooms for which investigations are not complete because of the tenant occupancy reasons even though the investigation by the building have been completed.
- Leopalace21 has completed the consultation with the specified administrative agencies for 11,781 buildings against the targeted 12,305 buildings. The number of rooms corresponds to 11,781 buildings is 185,858.
- There are 16,779 buildings containing minor defects, of which the number of rooms with repairs completed is 20,705.
- The number of buildings containing obvious defects that have been demolished is 69 (916 rooms), and is not included in the table.
- The numbers given in the above table reflected the individual investigation results per room and the result of consultation with the specific administrative agencies.
- The numbers are subject to change because they are preliminary.

\*<sup>1</sup> Nail Series and Six Series are the apartment series subject to priority investigations

Gold Nail, New Gold Nail,  
Gold Residence, New Silver Residence, New Gold Residence,  
Special Steel Residence, Better Steel Residence, and Con Grazia

\*<sup>2</sup> The Other Series are the apartment series subject to investigations in addition to Nail and Six Series

These refer to the 42 apartment series which we identified for investigations, apart from those series subject to priority investigations.

Estimated number of rooms requiring repairs: Approximately 33,200

Of 80,980 rooms that have been deducted "repairs completed" from "requiring repairs" in the above table, 21,217 rooms have been found defective as a result of the investigation. It is estimated that approximately 33,200 rooms need repairs, by adding 21,217 rooms to about 11,950 uninvestigated rooms that are estimated to be defective based on the past investigation results.
