**Leopalace21 Serviced Offices
have changed their floor layouts**

Leopalace21 Serviced Offices in Yangon and Manila have changed their floor layouts.
We changed our floor layout to build more and increased the number of private rooms with windows to meet customers' needs.
Our serviced offices could be used as a temporary office when taking an extended business trip, to carry out local surveys or marketing, for example, in order to investigate the possibility of launching your business in a different country.
